Care Area Assessment (CAA) Summary

V0200. CAAs and Care Planning

- 1. Check column A if Care Area is triggered.
- 2. For each triggered Care Area, indicate whether a new care plan, care plan revision, or continuation of current care plan is necessary to address the problem(s) identified in your assessment of the care area. The <u>Addressed in Care Plan</u> column must be completed within 7 days of completing the RAI (MDS and CAA(s)). Check column B if the triggered care area is addressed in the care plan.
- 3. Indicate in the <u>Location and Date of CAA Information</u> column where information related to the CAA can be found. CAA documentation should include information on the complicating factors, risks, and any referrals for this resident for this care area.
